Future Leadership Foundation

Facilitating the development of Christian leaders around the world

We want to thank you for the books that you gave to us. It has given us many insights about church planning and developing church leaders. We are looking forward to see what God has in store for us in the near future with Future Leadership Foundation.

We pray that God will bless you tremendously in developing church leaders in the USA and around the world.
Pastor Erwin Santoso, Auckland, New Zealand

I would like to sincerely thank you once again for the excellent conference in Kremenchuk. The more I think about the importance and meaning of the material you offered, the more I understand its indispensability for us. I set myself a goal to work again through the material and use it in my course of "Christian Leadership." This is a very important topic, and many ministers, unfortunately, do not understand it. Blessings to you.

Alexandr Zigalenko, President, Kremenchuk Bible College, Ukraine

First of all we'd like to say thank you for taking part in this conference. Sometimes we don't realize that the worship ministry is like a second pulpit and that it's more important than we used to think. You helped us to understand that our heart conditions are more important than just music. The lectures were very useful. Thank you also for showing us that the balance in music is of great importance. We appreciate all your great work and all the practical advice. You're always welcome here. God bless you your families and ministries.

Dasha and Galina at the Transformed conference in Belarus

When I was a young girl, Christians were not allowed to meet in public places and have conferences like this one. So I prayed for freedom of worship. Now, my heart rejoices to see my prayers answered. Thank you for the truths that we've heard from you, our teachers. Though we already knew the stories it gave us a fresh look and they spoke directly to our hearts. May God bless you, your churches, your families and your country!
